

Nurses Professional Indemnity and Broadform Liability Insurance

Insurance for the nursing profession

CGU Professional Risks in conjunction with MGA Insurance Brokers presents professional indemnity and Broadform liability insurance for registered and enrolled nurses.

With CGU's Professional Indemnity + Broadform Liability Policy (PIB) you will know that you are protected against potential claims and disputes that could lead to expensive and time-consuming litigation – a real threat to any individual or business.

That's why we've put together a combined insurance policy to assist you in doing just that.

By combining the two policies, we've made sure that the application process is simple and easy. Plus, if you have to make a claim, which is when your policy goes to work, you will find the claims process simple and easy too.

How does it work?

Professional indemnity protects you against any civil liability claims arising out of the provision of Professional Services provided by or on behalf of the Insured, whether in the past, present or future, while Broadform Liability protects you against legal liability to pay compensation for personal injury, property damage and advertising liability.

Examples of possible claims

- A patient suffers respiratory arrest resulting in hypoxic brain injury following the administration of morphine post operatively. The patient's speech and mobility have been impacted and a claim is made against the nurse for negligence.
- Whilst administering CPR to a patient at the scene of an accident, the patient sustains further injuries. A claim is made against you for compensation.
